EXPERIENCE

Frontend Web Developer   March 2023 – Present
Teravena

- Developed and maintained responsive web applications.
- Conducted code reviews and optimizations for improved performance.
- Developed a mobile gadget ecommerce store using React.
- Developed an HR management platform for an enterprise.
- Developed an Inventory Management App.

VOLUNTEET EXPERIENCE

Frontend Web Developer   November 2023
Klusterthon by Kluster.africa

- Engaged as a volunteer in Klusterthon, a competition hosted by Kluster.africa, where I actively contributed to my team's success.
- Develop a functional landing page and dashboard for a Fintech app as directed, showcasing my skills in web development.
- This experience not only honed my technical abilities but also fostered a sense of teamwork and innovation.

SELECTED PROJECTS

TaskBender: https://task-manager-sepia-eta.vercel.app/

- Developed a task management app with React and Django.
- Implemented secure user authentication (sign-up, login, logout).
- Enabled board, task, and subtask management.
- Categorized tasks as To-Do, Overdue, In Progress, or Complete.
- Utilized Redux for state management.
- Used SQLite for development and PostgreSQL for production.

StormSulpt: https://storm-sculpt.vercel.app

- Developed a weather application designed to deliver accurate and up-to-date weather information using REACT and free API from RAPID API.
- Some of its key features are Current weather snapshots (e.g. temperature and humidity), Geolocation, and a 3-day forecast.
